ANNUAL meeting of the Edmonton Brass Band to-morrow, Friday evening, for the election of officers. The band have not been organized just one year, but have not had their instruments so long by several months.

A SPECIAL train arrived on Tuesday evening, bringing a car of shingles, 1 of ash and doors for K. A. McLeod, a car of flour for the H. B. Co., a car of lumber for Moore & Macdowell, a car of sheep and a car of settlers' effects.

Battleford Herald: Wm. McKay, late of the Union Lake establishment, and formerly in charge of this district, has left the service. He and his family passed down the north side of the river a few days ago bound for Prince Albert. C. N. Garson, late of Victoria, succeeds Mr. McKay, at Union Lake.

Mrs. BRICK, of Shaftsbury mission, Peace river, arrived on Wednesday, accompanied by her son, T. A. Brick, on the way to Toronto, where she will spend the winter. Mr. Brick will return during the present summer. They were accompanied by Fred Lawrence, son of E. J. Lawrence, of the church of England school at Fort Vermilion, who is on his way to Chicago, to visit his sister.

## THE COMMERCIAL BANK.

The Winnipeg Daily Tribune of July 1 contains an account of the suspension of the Commercial Bank of Manitoba. The president, Duncan McArthur told the Tribune reporter that in the opinion of the board of directors the bank "is perfectly solvent and there is no question but that depositors and note holders will be paid in full." The bank had a circulation of about \$300,000, the paid up capital is \$550,000 and the authorized \$2,000,000. In reply to the question of what brought the crisis about, Mr. McArthur said: "There were certain reports started about a week ago, we do not know by whom. They were started simultaneously in several quarters and this led to the withdrawal of deposits and we found the drain so heavy on Friday that we decided to suspend and we will not open our doors Monday." He also said that he hoped to reorganize the bank on a sound footing and resume business. Commenting the Tribune says: "The failure of the bank is a bad blow to the province at this juncture when the financial stringency is so great. Being a purely local institution a great many are interested." The Tribune publishes a list of the shareholders from which it appears that James Pruden of Beaver lake holds \$7,000, Dr. Wilson, Edmonton holds \$400, and the estate of W. D. Lane, in which Mrs. P. Daly has an interest \$4,200. These are the only Edmonton parties who appear to be directly interested. Commercial bills are being taken by the Imperial bank at par here, which relieves any anxiety at that score. There is every prospect that depositors will realize dollar for dollar.

What the prospects of the shareholders are is uncertain. This will depend upon how the affairs of the bank have been managed, as each shareholder is liable to be called upon for double the amount of his subscribed shares if that should be necessary to square up with depositors and noteholders. Although the direct effect in Edmonton is fortunately light the indirect effect will doubtless be considerable in decreasing general confidence and therefore withdrawing money from circulation and contracting credit.

## NORTHERN NOTES.

A whaler is said to have passed last winter at the mouth of the Mackenzie.

There was an outbreak of influenza at Fort McMurray last winter which carried off a number of children.

Pierre Mecredi, who had been in charge of Fond du lac H. B. post on Lake Athabasca for 47 years, died suddenly last February while travelling on the lake.

A poor hunt of musk ox was made last winter from Fort Rae and Resolution, but the March hunt was very successful, and a large number of robes will be brought out this summer.

J. Beaulieu of Smith's landing on Great Slave river brought in several wood buffalo heads suitable for mounting, with his trade of fur. He is said to have refused \$50 a piece for them.

Colin Fraser, an old timer in Edmonton is trading for R. Secord at Chipewyan and Messrs. J. Hislop and E. Nagle, also well known in Edmonton, are now trading for him on Great Slave lake.

The season does not seem to be later in proportion to the distance north. The ice cleared out of the Athabasca at the Landing on April 30th. At McMurray it cleared on May 5th and Fort Smith in latitude 60° it cleared on May 15th.

Although food was plentiful in the country along the Athabasca and Great Slave rivers last winter, it is reported that there was a scarcity in the lower part of the Mackenzie, and that several deaths from starvation had occurred at Fort Norman and Good Hope.

The steamer built by the Roman Catholic mission at Chipewyan last winter to ply on the waters of the Athabasca is not yet a success. The engine is built for saw mill purposes and the attempt is being made to utilize the power to drive a stern wheel by means of a chain belt. The steamer did not make as good progress up the Athabasca as the men tracking their boats did. The engine taken down this spring for a boat to ply on the Mackenzie is a regular marine engine, and will drive a propeller. So that there is very little doubt that boat will be a success.

A police detachment of three men has been stationed at the Grand Rapids of the Athabasca to intercept liquor on its way north. It is said that the detachment was placed there at the special request of the H. B. Co. who desired to prevent other traders from taking in liquor. It is also said that the first seizure of liquor made by the police was a keg consigned to an H. B. Co. officer in the north. It is said that the Hudson's Bay authorities have decided that liquor shall not be imported by their officers or servants even under permit, hence the attempt to smuggle it, in the above case.

The Montreal Gazette dealing with the visit of the Alberta delegates to Ottawa says: "Mayor Lucas of Calgary, has been airing his opinions in the papers as to directions of the government in the matter of attracting immigration to Alberta, and upon the customs regulations. With regard to settlers' effects being admitted free of duty the impression here and in Manitoba and Assiniboia has been that the government is rather favoring Alberta than otherwise in the matter of immigration, and certain it is that there have been more settlers in the Edmonton district last year and this there are said to be a considerable number of land agents in Alberta who make handsome profits on sales of lands of railway and other companies and they no doubt are very anxious the government should make an extra effort to attract settlers to Alberta to the detriment of other portions of the Northwest, but their self interested grumblings are not likely to attract much sympathy." Bluff of this kind is unworthy of a paper like the Gazette. Let the Gazette come down to facts and say whether or not the government should regulate the promises of its authorized agents.

The C. P. R. company's net profits for May show a decrease of \$91,399 from those of last May, and for the five months ending May 31st, 1893 the decrease was \$204,301 over the corresponding five months of last year. Hitherto the returns of the C. P. R. have always shown an increase. Van Horne will have to hire his old book keeper over again. Or perhaps this is the company's reply to the demand for lower rates.

The Battleford Herald mentions that several horses affected with glanders have been shot by order of the authorities in the Battleford district this season.

NEW ADVERTISEMENTS.

WATER. The undersigned will deliver water to any part of Edmonton at the lowest rates, commencing July 6th. Orders left at P. Heilmann & Co's real estate office will be promptly attended to. W. F. STUDEBAKER.

LOST—On Saturday, July 1st, from East Edmonton, a large, brown, smooth, brindle dog, 12 months old, with a white blaze on his face, and a white patch on his chest. Also a bay, smooth, with a white blaze on his face, and a white patch on his chest. Branded indistinctly on hip. Parties returning some or giving information as to their whereabouts to J. McKenney's blacksmith shop, South Edmonton, or Vance's butcher shop Edmonton will be suitably rewarded. J. A. TRIMBLE.

FAX CONCERT CO., ROBERTSON HALL, Monday, Tuesday, Wednesday, July, 18th, 19th, and 20th. Admission 50c. Reserved 75c. Plan of hall at F. D. Fortin's BOOKSTORE.

Temporary offices at F. N. Glover's old stand, opposite the Massey Harris Co's.

## JASPER AVENUE.

## Peer of the Realm.

PEDIGREE

(2882) color, bay; four white (set star on face); bred by John S. Smith, Strathlam, Maine, Scotland, Aberdeen, imported August 24, 1891, British Empire (1899) Dan, Lass of Strichen (3223). Sire of Dan, Old Times (325) by Lord Glasgow (422) by Old Clyde, sire Clyde Reg (374) by Scotchman (374).

Peer of the Realm is a beautiful rich bay, 16 hands 3 inches high, with a round compact body, short, flat-boned, muscular legs, nicely feathered. He has large circular feet of good quality, oblique pasterns, excellent action and mild temper. Peer of the Realm was shown at the spring show of the Royal Northern Agricultural society, held at Aberdeen, February 1892 where he gained the first prize, and was awarded the Kinrossshire premium, (£100) where he travelled the season 1892. Since being imported he won the second prize at the Dominion exhibition, held at Ottawa in September, 1892, also first prize at the Clarke Agricultural show, and the first at the Darlington Agricultural show in 1892 and second in 1893. Also took the prize at the Dominion Industrial, 1892, and Glasgow Provincial Exhibition, 1892. First at Bathgate, N. D., at both spring and fall shows 1897.

EDMONTON BULLETIN JULY 6th, 1893

## A WINNIPEG EXHIBIT.

It is to be hoped that there will be a full meeting of the directors of the agricultural society on Saturday to consider the question of sending a district exhibit to the Winnipeg exhibition. There is every prospect that the Winnipeg fair will be better than usual this season and certainly Edmonton is well in a better position to make a creditable exhibit. The season has been particularly favorable, all kinds of crops are well advanced, grass practically is excellent, and there is every opportunity to make a splendid showing. It is practically impossible for private exhibitors to put their products on exhibition, but the agricultural society have the facilities for making a creditable collection, and placing it on exhibition in a creditable manner. The only occasions upon which this district has been properly represented to the outside world has been when in previous years the agricultural society sent an exhibit to Winnipeg in charge of its own officer. On no other occasion has Edmonton been properly credited with its products. Indeed it is an undoubted fact that samples sent from here have been systematically credited to other districts. It is necessary for us to handle our own exhibits if we are to receive due credit. It has, been the custom of the C. P. R. in past years to send an exhibit car each fall to the certain fairs. We know where Edmonton come out on that deal last year. Now if Edmonton were to make a strong effort to have a truly representative exhibit at the Winnipeg fair this year, that, with proper exertions, might be the means of securing a separate car for Edmonton exhibits in the fall. There is no doubt that this district is the one of all others in the Northwest which most closely approximates to the conditions prevailing in the better parts of the eastern provinces, and is therefore most likely to find favor with the people of those provinces who desire to move. At the same time Edmonton does not receive as great a proportion of these settlers as far less desirable districts in Manitoba and the Territories. This is solely because the advantages of the district have never been clearly put before them. They are always told that this district is like the rest of the Territories, only further from market and further north and therefore poorer and colder. The best proof of the advantages of the district would be a show of its products and a strong effort should be made to have such an Edmonton exhibit on its rounds this fall. The first step to that end would be a good showing at the Winnipeg exhibition.

## SIDEWALKS.

The sidewalks which are now being laid down in town are as follows:

Three plank sidewalk on east side of Namoy avenue, running from Jasper house on Jasper avenue to north side of First street on river lots 12 and 14. Thence easterly along the north side of First street to the west side of Kensington avenue. Thence along the west side of Kensington avenue to the south side of Second street, river lots 12 and 14. The three plank walk is of three, two inch planks, ten inches wide with 8 inch space between. R. B. Nutt and A. Brown are the contractors for this work.

The eight foot sidewalk runs on the west side of Fraser avenue from Jasper avenue to the Eclipse stables.

The six foot sidewalk continues on the west side of Fraser avenue from the Eclipse stables to the corner of Second street on river lot 10. Also on the east side of Fraser avenue from the corner of Second street river lot 10, to Jasper avenue at the Alberta hotel corner.

The four foot sidewalk starts from the eight foot sidewalk on Jasper avenue at the corner of Third street, H. B. reserve. Thence it passes down the east side of Third street to the south side of Victoria avenue. Thence westward along the south side of Victoria avenue to the west side of Ninth street. From this walk there will be three spurs to McKay: One on the west side of Fourth street to the Presbyterian church and the public school; One on the west side of Sixth street to All Saints church; and one on the west side of Ninth street to St. Joseph's Roman Catholic church and school.

There will be crossings at all streets laid on sleepers six, four feet from centre to centre. The covering is of 4x8 sawn lumber set on edge apart. All the wood to be laid down.

James McDonald is contractor for the eight foot, six foot and four foot sidewalks. Over 100,000 feet of lumber will be required for all the walks, which is being supplied by Fraser & Co. and Moore & Macdowall.

## GUN CLUB TOURNAMENT

Held at Edmonton, July 1st, 1893. First event 15 single targets.

No.	NAME.	Total
1	H. H. Robertson,	030101001000 — 3

## Petroleum! PETROLEUM

For some months past it has been known that an important discovery of indications of Petroleum, had been made at Egg Lake, about 18 miles northwest of

## Fort Saskatchewan

Some believed it and others did not. However, Mr. J. B. Tyrrell, of the Dominion Government Geological Survey, has visited the Lake, and satisfied himself that there are ample indications to warrant development operations being begun. (Vide, Edmonton "Bulletin," of 1st instant.) This being so—what do the Dominion and Territorial Governments, and also the Canadian Pacific Railway, propose doing about it? And when? All three are equally interested. It is the duty of every person in Northern Alberta to make the most of such an important discovery of mineral wealth in our district, and to keep things agitated until something is done to develop or are we all dead to the advantages to be gained?

IN THE MEANTIME

## EDMONTON ELECTRIC RAILWAY AND THE WORLD'S OUTLOOK.

To the Editor EDMONTON BULLETIN.

DEAR SIR: Having read your report of the public meeting called to consider the advisability of having an electric railway at Edmonton, I think the remarks of the lecturer (Mr. Brock) were most valuable in their applicability to this town, and that he spoke wisely when he put the people, before capital, also the secretary's words were to the point. Now as to its universal application. To-day sir we hear all kinds of arguments put forward as to the cause of the depression in trade, the chief one I think being over production. This is a fallacious argument, and there would be no such thing in the world, if all the needs were supplied. If you have a superabundance of one thing it is at the cost of something else; or a glut in the market here, there is scarcity somewhere else. We also hear a great deal about the integrity of the "British Empire." Well if its not worth more than there is so much political cavil over, it ought to be thrown overboard, for I maintain that to-day (if not in every part of the world and I see no reason why) that at least in every part of this empire, we ought to be able to get at a reasonable cost, "all the fruits of the earth," and this can only be done by a better intercommunication between every part of it, which means more ships, railways and every other kind of carrying power, which together with other reforms would be the means of absorbing all the unemployed. For the real cause of depression is the want of a better communication, and the evil effects of monopoly. To illustrate what I mean I will only mention two of many articles I know of. I don't suppose there would be scarcely a dozen persons in this country who would not be willing in season to give a bushel of potatoes, or some other kind of this country's produce, for half the amount of oranges, and yet I have been to places where this is reversed and you could get double or treble the amount of oranges for the things I have mentioned. What is the cause of this paradox? the answer to my mind is plain. It is no use for us to "talk about" being the food producers of the world if we have no means, or rather inadequate means of conveying that food throughout the world. There are other forces which have come under our observation equally if not more powerful than electricity, and which probably in the near future may be used for the more rapid propulsion of ships. In conclusion he who reads and thinks about the old countries, applicable to the new, must realize that these things are very rapidly drawing towards a solution which will either make or ruin nations. Apologizing for trespassing on your time and space,

I remain yours faithfully,

H. M. BING,

Sturgeon River, Fort Saskatchewan,  
1st July, 1893.

### FORT SASKATCHEWAN, ALBERTA.

The sports on Dominion day here, were witnessed by a large number of visitors from Edmonton, Victoria, Egg and Beaver lakes, Beaver Hills, Clover Bar and the Sturgeon river—and we are happy to say, that every one went home well pleased with the days programme. Surprise was generally expressed at seeing the race course on which the events took place. It is a half mile track, (with 220 yards of a straight run on either side, and circular ends) and is made on a sandy loam soil, and although it is not quite level in places, it will not require very much more work, to make it one of the best race tracks in the west. So say horsemen who have seen all the race tracks from Winnipeg, west. Its situation is picturesque, being on an open plain, with a creek just to the north of it, surrounded by popular bluffs, and having the Beaver hills some 4 four miles south east of it which are dotted, all along their slope, with farm houses. In the centre of the course is a fine flag staff 61 feet high, and on the northwest side, is the judges stand, which is neatly built, and painted and commands a perfect view of the whole course. The course had one large, and a number of small flags flying, which presented a good appearance. The welfare of the inner man was looked after by Mr. St. Jean, (licensed booth) Messrs. Lander, Johnston and James Graham, so that no one had to go hungry, or thirsty. Athletic games, commenced at 10:30 a. m. The following is a list of the events and winners of same, in order mentioned.

Quarter mile foot race—Const. Brown; R. A. White; A. Guertin.  
220 yards race—Const. Lamb; C. Daniels; R. A. Whyte.  
Putting stone—Corporal Byrne; Const. Gibson.  
Throwing cricket ball—Const. Lamb; Corporal Byrne.  
Running long jump—Const. Brown; Corporal Byrne.  
100 yard race, boys under 15—Hermidas Lamoureux; Arthur Lamoureux.  
100 yard race, girls, under 15—Caroline Daniels; Marie Berland.  
Running hop, step and jump—Corporal Byrne; T. P. Cairney.  
Three standing jumps—Corporal Byrne; T. P. Cairney.  
Three legged race—Cairney and Porter; Gainer and Wheatley.  
Half mile race, boys under 12—Arthur Lamoureux; Archie Turner; John Hamblly. This closed the athletic portion of the programme.

The judges were: Inspector Macdonnell and Joseph Chabot. Starter, Constable Payne.  
The horse racing commenced at 2:30 p. m. and finished at 6 o'clock. A great deal of interest was taken in it, as it was known that some dark horses were to be sprung on Fort Saskatchewan's little favorite "Blueskin," a pony which has never been beaten yet. However the result still is, that "Blueskin" is supreme.

Half mile dash (green) 14 hands and under—White & Stewart's "Wanda"; A. L. Levasseur's "Sam"; John Borwick's "Sam."  
Open trot, 1 mile, best 2 in 3—J. Carscaden's "Chub"; Mr. McLeellan's "Yellow Jack"; C. F. Stewart's "Whip-poor-will."  
N. W. M. P., half mile dash—"Gorgon" ridden by Const. Wooley; "Billy" ridden by Const. Duchesnay; "Johnnie" ridden by Const. Lamb.

Open quarter mile, best 2 in 3—F. Henderson's "Blueskin"; White & Stewart's "Doubtful"; J. Borwick's "Sam."

Open half mile, best 2 in 3—White & Stewart's "Darkey"; A. Levasseur's "Sam"; W. Whitford's "Sam."  
Novelty race—F. Henderson's "Blueskin" won 4, 3, 2 and mile.  
Consolation race—G. Donald's "Baldie"; D. Daniels' "Billy"; Wm. Henderson's "Barney."  
From 4 to 7 horses ran in every race.  
Judges were: Supt. Griesbach, and Messrs. Wm. Walker and James Reed. Starter: Constable Payne and Mr. Joseph Chabot.  
The following were the committee for the day: Messrs. F. Fraser Times, president; Sergt. Barry, vice-president; Const. Gordon Wright, secretary; and Messrs. Reed, Griesbach, Garland, Walker, Chabot, Macdonnell, Dickson and Forbes.  
Patron: His Honor, The Lieutenant-Governor.  
It is the intention of the Fort Saskatchewan agricultural society, to hold a race meeting this fall, during exhibition time, and we trust everything will come off as successfully as the Dominion day races.  
Our town is about to have a photograph gallery added to its business branches.  
3rd July, 1893.

### Academy for Young Ladies.

The Faithful Companions of Jesus have made preparations in their convent of Edmonton to open an academy for young ladies and to receive boarders on the 4th of September, 1893. ### Peer of the Realm.

PEDIGREE

(322) color, bay; four white feet; star on face; bred by John Sligh, Strichen, Mian Strichen, Aberdeenshire; imported August, '84. Sire, British Empire (1259). Dam, Bess of Strichen (3225). Sire of Bess, Old Times (578) by Lord Ralston (402) by Old Clyde alias Clyde Roy (574) by Scotchman (754).

### DESCRIPTION.

Peer of the Realm is a beautiful rich bay, 16 hands 3 inches high, with a round compact body, short, flat-boned, muscular legs, nicely feathered. He has large circular feet of good quality, oblique pasterns, excellent action and mild temper. Peer of the Realm was shown at the spring show of the Royal Northern Agricultural Society, held at Aberdeen, February 1894, where he gained the first prize, and was awarded the Kincairdineshire premium, (£100) where he travelled the season 1894. Since being imported he won the second prize at the Dominion exhibition, held at Ottawa in September, 1894, also first prize at the Clarke Agricultural show, and the first at the Darlingford Agricultural show in 1895 and second in 1896. Also took the prize at Toronto Industrial, 1896, and Growth Provincial Exhibition, 1896. First at Bathgate, N.D., at both spring and fall shows 1897.

### ROUTE:

MONDAY Noon, at W. Whiteley's, Sturgeon.

Night, at Chas. Carson's, Sturgeon.

TUESDAY Noon, at Chas. Carson's, Sturgeon.

Night, St. Albert.

WEDNESDAY Noon, O. Majumdar's, St. Albert, west.

Night, A. McNabb's, Stony Plain.

THURSDAY Noon, McDermott's, " "

Night, P. McNeil's, " "

FRIDAY Noon, W. Wellbourn, Stony Plain reserve.

Night, A. Brown's stable, Edmonton, where he will remain until Monday morning.

TERMS: To insure a foal, \$15, to be paid January 1st, 1894; for the season, \$12 to be paid second to last round of horse; single leap, \$8, to be paid at time of service.

Mares that are insured must be returned regularly to the horse or they will be charged insurance whether in foal or not. Persons disposing of their mares before foaling time must pay the insurance whether in foal or not. No second price. All accidents at owner's risk.

J. C. MORRISON, Proprietor.

R. DETMOLD, Geo.

**FROM LAKE ATHABASCA.**  
R. Record returned on Monday from Lake Athabasca with a part of the just winter's trade of fur at his posts in that region. He was accompanied by Peter Luted, of Chipewyan, and two Chipewyan half-breeds, who also brought some furs. Mr. Record's furs are probably the largest and most valuable lot ever brought to Edmonton for sale. They include a very large proportion of the most valuable skins, such as silver foxes, otter, fisher, marten, mink and wood buffalo. Out of a large number of silver foxes of very fine quality, one is a pure black. The more common so-called silver fox is chiefly black, but with a few white hairs on the back, giving it a more or less pronounced silver appearance. The less of these white hairs, the more valuable the skin. The fox skin alluded to has all its hair equally black except the tip of the tail and a small spot on the breast, which are pure white. Mr. Record has been offered \$125 for the skin. At a recent sale of H.B. Co. furs in London, England, only two such skins were offered. One brought \$215, and the other \$139. He also has several skins of the wood buffalo, and six buffalo heads to be mounted. In appearance the hides, heads and horns, these buffalo are precisely like the prairie buffalo. On account of the snow being deeper than usual in March last the Indians killed a larger number than usual of these animals. The skins were traded at Fort Smith. Food and furs were both more plentiful than usual in the lake Athabasca region last winter. At Fond du Lac, near the east end of Lake Athabasca, where John Secord, brother of R. Record, is trading, the deer of the barren grounds were very numerous, and large numbers of them were killed for food. Mr. Secord went from Chipewyan to Fort Smith, 116 miles, down Slave river, taking from May 29th to May 31st to go down the river against a head wind, but came back against the stream with a fair wind in a day and half. In going down to Lake Athabasca this spring, he left the Landing on May 28th, and made a very quick trip, running the Grand Rapids on the west side in four minutes, and making the following 99 miles to Fort McMurray in one day. At Little Red River, below McMurray, the half-breeds were planting potatoes on May 12th, and had very good potatoes left for seed from last year. Mr. Record will start for Lake Athabasca again in about three weeks, to bring out the remainder of his last winter's trade of furs, the returns not having come in from distant posts when he left Chipewyan for Edmonton.

**FROM GREAT SLAVE LAKE.**  
R. D. McKinnis, who has been trading at Fort Resolution on Great Slave Lake during the past winter, arrived on Tuesday from the north. He left Edmonton on the 11th of May of last year for the Landing, and left the Landing on May 31st with one boat load of goods and a crew of two men besides himself. At the mouth of the Lac la Biche river he was joined by S. V. Leu with two boats loaded for the Roman Catholic mission on the Mackenzie, and by P. Pruden with one boat loaded with goods for his trading post on Pelican river. The party started from Lac la Biche river on June 3rd, floating all night. Three days were occupied in portaging at the Grand Rapids. On June 9th they left the Grand Rapids and ran down to the gas springs 15 miles below Grand Rapids. At this point gas comes up from the bottom of the river and forms bubbles on the surface of the water as it escapes. On the shore, if a stick is thrust into the soft mud a flow of gas will come from the hole thus formed which may be lighted with a match. On the 10th they ran the Brule rapid four miles from the gas springs, and the Boiler rapid, twelve miles from the Brule and also the Crooked, Long, Stony, Little Cascade and Big Cascade. At the latter the boats had to be lightened to let them pass over. On the 11th they ran the Mountain rapid and Moberly rapid and reached Fort McMurray at 11 a. m. From Fort McMurray to Lake Athabasca the river is sluggish, and the boats drifted all night. This is the part of the river along which petroleum tar is found. The first tar bearing rock is seen at the Long rapid about 50 miles below the Grand rapid, and continues until near Lake Athabasca. At the Walshash portage near Pelican rapids about half way between Lac la Biche river and Grand Rapids, Pruden's boat was unloaded. The goods were taken over a portage of ten miles to the Pelican river, which forms part of a canoe route between the Peace river at Fort Vermilion and the Athabasca, upon which route Mr. Pruden's trading post is situated. The boat and crew came on with the rest of the party to assist over the Grand Rapids. The country along the Athabasca from Fort McMurray to Lake Athabasca is flat, becoming lower and lower until the lake is reached. Here the waters of the Peace and Athabasca join Lake Athabasca by numerous entangled mouths and as the Peace or Athabasca or Lake Athabasca is highest the water flows from one to the other indifferently. What is up stream one day on some of these connections may be down stream the next, and it is even said that sometimes the current is flowing in one direction on one side of the channel and in the opposite direction on the other. On the 13th they camped at the head of the Embarras mouth of the Athabasca, and reached Chipewyan on the 15th crossing the lake with a fair wind. On the 17th they started for Smith's Landing at the head of the Rapids on Great Slave river and reached there on the 19th. The country along both sides of this part of Slave river is of granite rock. To pass the rapids on Great Slave river a crew of 16 men was hired and three days and a half was spent in taking Mr. McKinnis' boat over. Three complete but short portages had to be made, where the rapids were a perpendicular fall. The boat ran the other rapids, which were not bad. The total fall in the 14 miles of rapids is said to be 300 feet. The H. B. steamer Grahame runs to the head and the

Wrigley comes to Fort Smith at the foot of the rapids. Goods are conveyed from one landing to the other by wagons. From Fort Smith the trip to Slave lake occupied three days in smooth water. Resolution being reached on July 5th. The country on both banks of the river from Fort Smith to Resolution are low and sandy with no rock or even stone in sight.

Resolution is on the south shore of Great Slave river. The country around is low and flat, there being a little dry land on the bank of the lake, and the country behind being muskeg. To the eastward granite is found and to the west limestone. There are the usual buildings of a Hudson's Bay post, an English church mission, with a school in connection, and a Roman Catholic mission all near together on a small projection of land between two bays. All three establishments cultivate small fields of potatoes and other vegetables and the H. B. Co. some barley as well. This barley was very good but the potatoes were not so good, owing chiefly to the soil having been impoverished by long cultivation. Growth is very rapid once it starts, and the summer weather is very hot. On July 5th when Mr. McKinnis arrived there ice was still to be seen in the lake and the potatoes were only coming through the ground, and yet on August first there were new potatoes fit for use. The summer nights are very short and the light of the sun can be seen all night. Jas. McKinlay is the H. B. officer in charge of the post. Rev. Mr. Spendlove is the Church of England missionary, Mr. Lawrence has charge of the mission school and farm and Rev. Pere Du Pire is the Roman Catholic priest. The summer season was good, there being no frost until the latter end of September. Ice began forming in the lake about October 15th and the ground froze about the end of October. The boys froze and broke up several times but finally set fast about December 1st. The main lake, the next largest body of fresh water to Lake Superior, froze over about December 15th. The winter strange to say was not as severe as usual. During the cold spell of the latter end of January and the beginning of February, which was felt severely at Fort Smith 200 miles south there was very good weather at Resolution. November was stormy but the remainder of the winter was calm. The coldest weather was about Christmas. Food was plentiful all winter; as rabbits were numerous and increasing, but still not so numerous as on the Saskatchewan. There is an excellent fishery near Resolution, and salmon trout from five to thirty-five pounds weight are caught through the ice all winter. Over 30 wood buffaloes were killed during the winter in the country west and southwest of Fort Smith, and the skins traded at Fort Smith and Chipewyan.

Mr. McKinnis left Resolution on April 13th, with dogs for Fort Chipewyan. At that time the weather was fine but there was no sign of spring. He reached Chipewyan on April 21st. The weather broke shortly afterwards. The first boat arrived at Chipewyan on May 17th having followed the ice closely down the Athabasca. The boat brought Capt. Segers to take command of the H. B. steamer Grahame and Capt. Mills to take command of the Wrigley, in place of Capt. Bell, who is coming out. R. Record arrived a day or two after. Messrs. McKinnis, Secord and Luted left Chipewyan June 10th with a boat and crew of nine men and trucked up the Athabasca to the Landing which they reached on July 1st.

## Just A Few Words.

To the people of Edmonton and surrounding country.

It is quite possible that we may have an Electric Railway—and an absolute fact that we have a new Post Office almost completed; and complete stock door you will find the most complete stock of Pure Drugs and Chemicals, Patent Medicines, Toilet Articles, Soaps, Perfumery, Cigars, Pipes, Mixed Paints, &c., &c., in the city.

**COOPER'S SHEEP DIP AND HERBAGEUM.**

Dispensing department open day and night. Telephone connection.

**P. ROSS, CHEMIST AND DRUGGIST.**

## Petroleum! PETROLEUM

For some months past it has been known that an important discovery of indications of Petroleum, had been made at Egg Lake, about 15 miles to the west of

## Fort Saskatchewan

Some believed it and others did not. However, Mr. J. B. Tyrrell, of the Dominion Government Geological Survey, has visited the Lake, and satisfied himself that there are simple indications to warrant development operations being begun. (Vide, Edmonton "Bulletin," of 14th Inst.) This being so—what do the Dominion and Territorial Governments, and also the Canadian Pacific Railway, propose doing about it? And when? All these are equally interesting. It is the duty of every person in Northern Alberta to make the most of such an important discovery of mineral wealth in our district, and to keep things quiet until something is done to develop—or are we all dead to the advantages to be gained?
